Dear Sir:

Applicant submits the attached Rescission of Previous Nonpublication Request, and notes that the original certification was improper based on an interpretation by the USPTO that a Request for Nonpublication should not have been filed if on the date of such filing a counterpart to an application incorporated by reference in the present application was already filed internationally, concurrently filed internationally, or not yet the subject of a decision of whether to file internationally.

Prior to or on the date of filing the above-identified application, a counterpart to an application that is incorporated by reference into the above-identified application was filed in another country, or under a multinational international treaty (e.g., filed under the Patent Cooperation Treaty), that requires publication of applications eighteen months after the filing. The filing date of the prior or concurrently filed foreign or international application is 1/8/01.

Respectfully submitted,
